NATIONALIST CURRENCY ELDGINATED

The people of the Knan-chung and Huang-lung sectors on the border between the Eansu-Hingsia Border Region and EMT territory have begin a drive to eliminate the circulation of Mationalist currency. All local party committees in Knan-chung held a conference in August and decided to publicize the more as a blow at the Mationalist economy, expose the hypocrisy of the EMT currency reforms, and prohibit the circulation of EMT and foreign currencies and illegal coin transactions. Antisunggling activities on the borders have also been strengtheoned.

After reasons for the move were explained, farmers everywhere took their savings of BMT currency to the border and spent them. Militia and guerrilla units at Chang-hing Ch'd are stationed at entrances to the area to prevent mationalist currency from re-entering the Border Region.

In September, the local party committees of the Hang-lung sector issued an emergency notice also designed to eliminate Mationalist currency, maintain Communist-sponsored money, and prevent Border Region gold and silver from leaving the area. People on the border are now resorting to barter rather than use the new gold yuan, while farmer currency sled circulates freely in the villages of the buffer guerrilla areas. Even in EMT-held territary the people are secretly using farmer currency.
